COURSES & CERTIFICATION

5-Day Gen AI Intensive Course on Kaggle in collaboration with Google

(Nov-2025)

- Learned to build and interact with AI agents, improving my ability to automate tasks and solve real-world problems using GenAI
- Strengthened skills in experimenting with modern AI tools through hands-on activities, enhancing creativity, productivity, and innovation.

Introduction to Prompt Engineering on SimpliLearn

(Nov-2025)

- Learned how to design and refine prompts to get more accurate and relevant responses from AI models.
- Earned practical understanding of prompting techniques to improve task-specific output quality.

Goldman Sachs Software Engineering Virtual Experience Program – Forage

(Feb-2025)

- Cybersecurity analysis and risk assessment
- Password security evaluation and enhancement, Technical report writing and communication

Microsoft Asia AI Odyssey– Level 1

(Jun-2024)

- Gained exposure to Microsoft AI tools and platforms and an understanding of AI's role in real-world scenarios.

EXPERIENCE

Web Development Summer Intern at Unified Mentor Pvt. Ltd.

(15 Jul, 2025 – 15 Aug, 2025)

- Acquired hands-on experience in React, TypeScript, and Tailwind for build responsive UI components.
- Learned to implement authentication, routing, and state management using modern frontend best practices.

PROJECTS

Black Light Ai | [\[Link\]](#) | [\[GitHub\]](#)

- Built an autonomous cyber risk assessment agent that automates web security analysis using multi-agent LLM workflows and threat intelligence

Technologies Used: Python, LangChain, OpenAI API

Reddit Bot Detective | [\[GitHub\]](#)

- Built a tool to analyze Reddit user behavior patterns and identify potential bot accounts using automated detection techniques.

Technologies Used: Python, PRAW, Machine Learning, Data Analysis

Synq- A Chat App | [\[GitHub\]](#)

- Developed a full-stack MERN chat app with real-time messaging, user authentication. Designed an engaging UI with a dark theme.

Technologies Used: React.js, Node.js, Express, MongoDB, Socket.IO

InkWell- A Blogging App | [\[Link\]](#) | [\[GitHub\]](#)

- Built a responsive MERN stack blog platform with user authentication, blog publishing, and card-style layouts, and integrated a clean UI using React + Tailwind CSS with backend APIs for blog management.

Technologies Used: React.js, TypeScript, Node.js, Express, MongoDB, Tailwind CSS, Vite

POSITION OF RESPONSIBILITY

Innovation Coordinator at Institution's Innovation Council, JIMS VK

(Sep 2025- Present)

- Coordinated and led campus events, including the SIH Internal Round.
- Responsible for **overall coordination** of activities conducted by the **Institution's Innovation Council (IIC)**, JIMS VK.

Secretary at Enigma – the IT club of JIMS VK

(Sep 2024-Apr 2025)

- Conducted and organized the **Installation Ceremony** at Enigma – IT club of JIMS VK, **Cynet- Annual IT fest** of JIMS Vasant Kunj

SKILLS AND INTERESTS

- Languages:** Python, Java, C, C++, HTML, JavaScript, PHP.
- Technologies:** Machine Learning, AI, Data Science, Fuzzy Logic.
- Software:** Microsoft Office, Android Studio, Blender, DBMS.
- Cloud Services:** Google Cloud Platform (GCP), Microsoft Azure

EDUCATION

JIMS, Vasant Kunj New Delhi (affiliated with Guru Gobind Singh Indraprastha University) -

- Bachelor of Computer Applications** - Currently in 3rd year with **CGPA of 9.29(till 4th semester)**

Kamal Model Sr. Sec. School (affiliated with CBSE) - XII Grade – 75%

Kamal Model Sr. Sec. School (affiliated with CBSE) - X Grade – 91%
